

## BE PREPARED FOR THE NEXT WINTER STORM

### ✔ Managing Winter Weather

Winter weather can be difficult to manage, but with Weatherlogics' winter maintenance platform, you'll always be prepared. Our proprietary platform allows you to receive road-specific forecast guidance to manage all forms of winter weather. By utilizing our advanced weather information, you'll save money, improve safety, enhance efficiency, and reduce the environmental impact of winter maintenance. **This is not your typical weather forecast.**

### ✔ Convenient App Access

The Weatherlogics app provides easy access to this information from any smartphone, tablet, or desktop computer!

## AVAILABLE FEATURES

### Radar Imagery

Local, regional, national, and international imagery to show what's headed your way.

### Graphs and Tables

See how weather conditions will change by the hour:

- Air and pavement temperatures
- Road conditions (snow, ice, rain, frost)
- Wind speed, direction, gusts, and blowing snow
- Rain, snow, freezing rain, and ice pellets
- Dew point and relative humidity
- Cloud cover and visibility

### Meteorologists

Our meteorologists are available to consult with you during winter storms.

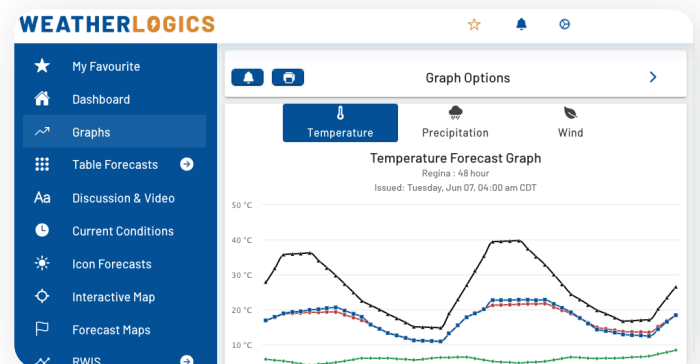

### Warnings

Government warnings or custom alerts can be scheduled so you have notice of hazardous weather.

### Treatment Advice

Your jurisdiction's application rates can be programmed for weather-based treatment advice.

### Weatherlogics App Access

### Custom Features

Our in-house development team can create custom app features to suit your needs.

## PRICING & CONTACTS

### Custom Pricing

The Weatherlogics winter maintenance portal is customizable to provide the information you need. We'd be happy to provide a free consultation and quote that's tailored to your situation.
